bio

Timothy Wing Kei Tsun [Tim] was born in 1972 in Hong Kong. His true calling in art is drawing. The beginning of his artist's journey is first learning the Chinese calligraphy. Tim began to like Chinese calligraphy and became more attentive to the strength of strokes and lines which led him to be a master of the graphic composition.

With the influence of Hong Kong and Japanese comics, Tim began to use a lot of crosshatching with quill pens and mechanical pens in order to add different weight of lines in his work. Collages also introduces to convey his concept of reality with his daily life — snapshot moment. By sitting in a cafe for few hours in the weekend, he observes people's behaviors and put it into his ingredient of art pieces. So when the viewers see Tim's work, they will be interacted with his works like an echo of the similarities in life that can build an intimacy to the viewers.
